

ABC2 at Home

Activity Plan #1

Feeling overwhelmed trying to keep your kiddos busy and finding focus in your day? Here are a few ideas from our home to yours...

Find more at <https://www.pinterest.ca/abc2creations/pins/> on my ABC2 Home board.

Academic Focus: Summarizing

Summarizing is a great skill and can be taught through daily activities your kiddos are already doing. TV shows, movies, reading or even a walk or outdoor play can all be wrapped up in a concise little package.

These templates can be used as an independent follow up for any of the above activities. For more options, use the link above to my Pinterest page.

[3-2-1 Summary](#) Use after watching a National Geographic Documentary on Disney+

[SWBST Chart](#) Use to summarize a story, chapter, TV show, movie (age 7-10)

[5 Finger Retell - picture option](#) perfect for 4-7 year olds who prefer to draw

Creative Focus: Spring Craft

With the weather warming up, it is a great time to get outside together and “gather”. Have a look for pinecones, rocks, sticks or other natural treasures and head back inside to make your own farm or zoo. This is a great activity to complete after watching/summarizing a documentary or checking in with one of the online zoo observation links (below).

[Pinecone Crafts](#)

[Rock Safari](#)

Movement Focus:

Try www.gonoodle.com, create a profile and let your kiddo get active and watch their “monster” grow!!

Online Activities:

Many public spaces have designed online visiting options. If you want to keep the “animal” theme going, check out <http://cincinnatizoo.org/home-safari-resources/> for great independent activities and videos as well as a link to a live Home Safari broadcast at 3pm everyday.
